

February 17, 1936

Mr. W. S. Carpenter, Water Commissioner,
Glendale, Utah.

Dear Sir: REL: LONG VALLEY DISTR.

Enclosed herewith please find a statement of my itinerary for a trip which I am making particularly to confer and hold meetings with the water users. Please note the date and hour on which the meeting is to be held in your distribution system, and please make arrangements for use of a building for holding said meeting.

There is being sent from this office a notice to each of the water users affected, as per enclosed copy. You may give notice otherwise in whatsoever manner you choose. Please take steps and do whatever is necessary to have as big an attendance as is possible. I am making an extreme effort to reach all of the distributions referred to and I would like, therefore, to meet as many of the water users as is possible. I shall depend on you to see to it that they are in attendance as far as is possible and practicable.

Yours very truly,

T. H. Humpherys
